

Commercial Management Accountant

The Commercial Finance Manager will act as a key business partner to the CFO and senior operational teams, driving financial performance across live event projects. This role combines commercial insight with financial rigour, supporting pricing, project profitability, and strategic decision-making.

The role will act as a link between the project managers and the finance team, the project management system and the financial data. As the role grows we will look to introduce more reporting and dashboarding using new tools and systems. This will play a pivotal role in ensuring projects are delivered profitably, risks are managed effectively, and the business has clear visibility on financial performance.

Another key aspect of the role will be supporting the CFO in M&A activities. From strategic planning, support on due diligence activities, managing third parties through the process and, finally, integration into the ER family.

Qualifications and Experience:

- Fully qualified accountant (ACA, ACCA, CIMA or equivalent)
- University degree or equivalent preferable
