

PROFESSIONALS AWARENESS COURSE

FOR DISPLAY LASERS, STAGE PYRO & SFX

The course is designed to inform and educate relevant professionals in specific best practices and competency definitions for the laser, pyro and SFX sector.

It has an exciting mix of theory, discussion and hands on demonstration of a range of our kit! If you work in venue management, event safety, or for a local authority, or evaluate SFX installations, then this course is for you!

COURSE CONTENT

Module 1

Regulatory Framework & Competency
