

Kick-start your career in the live events industry and boost your employability with our exceptional placement opportunities!!

About the Placement Programme

Our placement programme will have a focus on technical skills. We value dependable people who maintain focus and pay attention to detail. Most importantly, we want you to actively be involved and work collaboratively with the global ER Team.

Our focus is on attracting emerging event professionals to progress with us through clear pathways that allow you to excel. This starts with a placement opportunity.

We provide paid placement opportunities initially for 3 months, with the option to extend to 6 months for the right candidate.

Our 3-month placement is ideal for those exploring a career in the live events industry and looking to gain insight into what's involved. 6-months could contribute towards your degree or qualification or set the scene for future employment.

During your placement, you'll gain hands-on experience as part of a highly skilled team, learning the shelf-to-stage journey of all our equipment. You can expect your time with us to include:

- A 1-week onboarding program, with hands-on training and learning from senior experts within the company.
- Paired with an existing technician to shadow and learn detailed tasks.
- Formal training on the safe use of lasers, flames, CO2 and pyro effects at our premises.
- Experience working through our technical benches for laser, SFX, Control & cables, teaching direct skills on kit repair and preparation.
- Working with tour technicians as they prepare their jobs, gaining insight and real world experience from some of the best show operators in the world.
- Structured attainment through the placement, with regular check-ins on progression, and certification for completion to demonstrate your experience with us.

Our placements are open to individuals over 18 who are completing secondary education or enrolled in further education. Not yet 18? We also offer work experience opportunities — scroll down to learn more.

Who can apply for our placements?

If you're:

- looking to learn more about the industry, seeking new opportunities or just looking to see what's out there
- on a gap year
- an existing student as part of your qualification requirements
- looking for your first year of employment
- looking for an internship in live events

Why should I do it?

You'll gain hands-on experience and a deep insight into how a company like ER prepares to deliver world class shows. You work directly with our technical team, working with cutting-edge equipment, delivering top-quality service, helping to deliver innovative solutions for events across the globe.

You'll learn best practice for preparing, controlling and moving our high-performance equipment, whilst maintaining safety at shows in a high-octane environment.

ER Productions have a strong culture of teamwork, and support and celebrate individual progression as well as our own company growth. This placement gives you a chance to work within that environment and gain many transferrable skills as well as technical ones.

What do I gain?

- Competitive salary
- Experience at the industry's leading laser and SFX company
- Structured training & certification of learning.
- Training logbook
- ER merchandise set
- Opportunity for further placement or employment
