

Warehouse Entertainment Technician

Do you have good attention to detail? Are you interested in the Live events industry? Are you looking to work in a growing, international, fast paced, exciting and global business working with some of the world's best known live acts and entertainers? ER Productions is the world record holder for the world's largest laser display performed in Dubai in 2021, would you like to join the team and be part of delivering the most exciting displays on planet earth? This could be the job for you.

For the right candidates there are development and career opportunities as our business continues to implement our ambitious long term growth strategy. Our work will truly give you the opportunity to develop your skills and broaden your experience enabling you to develop and grow.

Purpose Of The Role

To ensure that equipment returning from performer show sites is clean, checked, serviced and data recorded onto ER's booking system so that every piece of equipment and cable is returned to stock and ready to be used in perfect working order as if brand new. To support the Project Manager with equipment that is returned to the warehouse that may need to be inventoried, cleaned or repaired. Assisting the Las Vegas Office with global inventory and support as needed.

You will be working in a fast paced international business across multiple time zones, therefore it is important that you have the following Skills and Experience:

- Good attention to detail
- Ability to take instruction and complete tasks in line with written guidelines
- Technically minded
- Must be computer literate and able to navigate online booking systems
- Live event industry experience **preferred** but not essential
- Electrical cable experience preferred but not essential
- Electronic experience preferred but not essential
- Operates with urgency
- Ability to cope under pressure
- Available outside of office hours and willingness to get the job done
- Physically fit and able to lift and move heavy equipment
- OSHA Certification a plus, however not required at the time of onboarding.

As a Warehouse Technician, responsibilities will include but are not limited to:

- Test each piece of cable and power distribution on return to ER, ensure that the cable and power distribution is complete, clean and ready to use. Carry out repairs. Log details and send to quarantine as required.

- Test each piece of laser equipment on return to ER, ensure that the equipment is in full working order, clean (external and internal optics) so that the laser is ready to use. Make minor repairs. Log details and send to quarantine as required. Inform the de prep manager of any missing kit, report re-occurring faults
- Test each piece of SFX equipment on return to ER, ensure that the equipment is in full working order, clean and ready to use. Make minor repairs. Log details and send to quarantine as required. Inform the de prep manager of any missing kit, report re-occurring faults.
- Test each piece of control equipment on return to ER, ensure that the equipment is in full working order, clean and ready to use. Test faders and control interfaces. Remove and store show files and reset control systems to current software versions. Inform the de prep manager of any missing kit, report re-occurring faults
- Keep the workplace clean and tidy
